## Profile

---

I am a software developer that keen on honing my skills and expanding my knowledge. My enthusiasm for continuous learning and creativity motivates me to excel in this subject. I am actively looking for opportunities that not only help me build upon my current abilities but also provide a pathway for ongoing personal and academic growth.

## Professional Experience

---

2023/03 – 2023/08

### Web Developer

Tripoli, Lebanon

*Elite Academy*

#### Admin Website

- Enhanced website design for optimal responsiveness using Bootstrap framework.
- Integrated new functionalities for efficient data management, including additions, updates, and deletions, across multiple views on three different websites.

#### Elite Academy Website

- Revamped design to achieve exceptional responsiveness through the implementation of Bootstrap framework.
- Reconstructed website layout to align with the Figma design, ensuring a seamless and attractive user experience.
- Effectively communicated and incorporated revisions, refining design specifications in collaboration with the design team.
- Developed and established backend connections to seamlessly enable key features such as user sign-in, sign-up processes, and dynamic course page filtering, resulting in enhanced user engagement and functionality.

2022/11 – 2023/01

### Web Developer Intern

Tripoli, Lebanon

*Codendot*

#### WordPress: Learning by Building a Full Website

- Installation
