Profile

I am an undergraduate student, who's looking for an opportunity in order to enhance my skills and gain more experience and knowledge.

Guided by the desire to become a seasoned expert in this domain, I am driven by a constant thirst for learning and innovation. I am now seeking a role that not only leverages my existing skills but also offers opportunities for continuous growth.

Professional Experience

2023/03 – 2023/08

Web Developer

Tripoli, Lebanon

Elite Academy

Admin Website

- Enhanced website design for optimal responsiveness using Bootstrap framework.
- Integrated new functionalities for efficient data management, including additions, updates, and deletions, across multiple views on three different websites.

Elite Academy Website [🔗](#)

- Revamped design to achieve exceptional responsiveness through the implementation of Bootstrap framework.
- Reconstructed website layout to align with the Figma design, ensuring a seamless and attractive user experience.
- Effectively communicated and incorporated revisions, refining design specifications in collaboration with the design team.
- Developed and established backend connections to seamlessly enable key features such as user sign-in, sign-up processes, and dynamic course page filtering, resulting in enhanced user engagement and functionality.

2022/11 – 2023/01

Web Developer Intern

Tripoli, Lebanon

Codendot

WordPress: Learning by Building a Full Website

- Installation
- Dealing with Server Problems Related to PHP Extensions
- Responsive Design Using the Bootstrap Framework
- Exploring the WordPress Dashboard and Its Various Sections (e.g., Posts, Pages, Media, Themes, Plugins)

Magento 2 ECommerce Framework: Learning the Basics

- Installation
- Dealing with Server Problems Related to PHP Extensions
- Overriding Templates: Demonstrated the ability to override default templates in Magento 2, customizing the look and feel of various front-end components.
- Creating New Modules: Proficient in developing custom modules in Magento 2 to extend functionality, add features, or modify existing behaviors.
- Designing Layouts: Competent in creating custom layouts in XML to structure the visual presentation of Magento 2 pages and blocks.

2021/08 – 2022/02
Tripoli, Lebanon

Developer

Utility

I am an experienced backend team member proficient in creating automation scripts and files to streamline operations across multiple platforms, including Zendesk, Freshdesk, Jira Service Desk, Google Sheets, and PowerShell commands. My role involves designing and implementing efficient automation solutions to enhance workflow efficiency and productivity within these services. Additionally, I have acquired a strong foundation in creating backend services, with expertise in Flask, PostgreSQL, Python, and utilizing REST APIs. I am also proficient in the Robot Framework, allowing me to develop and maintain automated test suites for robust quality assurance.

2019/11 – 2021/03
Tripoli, Lebanon
