SUMMARY

Enthusiastic and detail-oriented Web Developer with hands-on experience in front-end development, specializing in creating responsive and user-friendly websites. Proficient in modern web technologies including ReactJS, PHP, and Bootstrap. Seeking opportunities to leverage my skills and contribute to innovative web development projects.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, PHP, Java
- **Web Development:** HTML, CSS, Bootstrap, ReactJS, SASS, Tailwind CSS
- **Version Control:** GitHub
- **Technologies:** WordPress, Magento 2, NodeJS, MongoDB

WORK EXPERIENCE

Inventus Agency

Web Developer | June 2024 - Present

- Enhanced features through testing and improved the accuracy of testing scenarios by satisfaction up to 20% for both mobile and web admin applications.
- Conducted weekly client meetings to review progress, validate work, and discuss new features.
- Contributed to database design and generated tables using MongoDB for a Node.js project.
- Developed and tested RESTful APIs.
- Code Refactoring: Conducting extensive refactoring of the existing codebase to enhance readability, maintainability, and overall performance.
- *Technologies Used:* Utilizing advanced technologies including ReactJS and Flutter for the user interface, NodeJS for server-side logic, and MongoDB for database management.

Elite Academy

Web Developer | March 2023 - August 2023

- Enhanced website design for optimal responsiveness using Bootstrap framework.
 - Integrated new functionalities for efficient data management, including additions, updates, and deletions, across multiple views on 3 different websites, improving data processing speed by 20%.
 - Revamped design to achieve exceptional responsiveness through the implementation of Bootstrap framework.
 - Reconstructed website layout to align with the Figma design, ensuring a seamless and attractive user experience, increasing user satisfaction by 15%.
 - Effectively communicated and incorporated revisions, refining design specifications in collaboration with the design team.
- Technologies: PHP, Bootstrap, CSS, jQuery, JavaScript.*

Codendot

Web Developer Intern | November 2022 - January 2023

- Developed the initial e-commerce platform using WordPress over the span of one month, implementing essential e-commerce functionalities to support international operations.
- Spent the following two months learning Magento e-commerce framework. "This involved installing a new Magento project and gradually learning through small tasks to understand how to customize and override existing code to create new layouts and functionalities."
- Gained hands-on experience by working on specific tasks assigned to improve and customize the Magento platform. Focused on practical application and learning through incremental improvements.
- *Technologies used: PHP, Magento 2, WordPress Bootstrap, CSS, JavaScript.*

PROJECTS.

FreshProducts

- **Custom WordPress Development:** Developed custom WordPress themes and plugins to enhance the functionality and user experience of various websites. This involved implementing responsive design principles and ensuring seamless navigation.
- **Responsive Design Implementation:** Ensured that all custom themes were fully responsive, providing an optimal viewing experience on various devices and screen sizes.
- **Technologies Used:** Utilized WordPress for content management, PHP for server-side scripting, and JavaScript and CSS for front-end development.

Todo App

- **Responsive App Development:** Developed a responsive Todo App using TypeScript and ReactJS, focusing on creating a user-friendly interface and seamless user experience.
- **Backend Integration and API Testing:** Implemented backend functionality using Strapi and conducted thorough API testing with Postman to ensure reliable data interactions.
- **Deployment and Uptime Achievement:** Deployed the app on Vercel and Render, achieving a 98% uptime and providing a consistent and reliable user experience.
- **Technologies Used:** Leveraged ReactJS for front-end development, TypeScript for type-safe coding, Strapi for backend functionality, Postman for API testing, and Vercel and Render for deployment.

EDUCATION

- **Master's in Computer Science** CNAM University, Tripoli, Lebanon | 2021 – 2022
- **Bachelor's Degree in Computer Science** CNAM University, Tripoli, Lebanon | 2018 – 2022

ADDITIONAL INFORMATION

Certificates and Workshops:

- Dart from Zero to Proficiency, Udemy.
- Flutter Festival Lebanon, Google Developer Groups.
- PHP 8, Udemy.
- Zero to Hero in Front-end Development with React, Educative.

Workshops:

- **League of Logics** – with Senior Software Engineer Sami Shameseldeen, organized by GDSC at Masahet Nour workspace | 27th July 2024

Applied knowledge of algorithms and data structures to problem-solving, I achieved 10th place out of 30 competitors in a problem-solving competition

- **Software project management in practice** with professional Product Manager Gardenia Al Homsy at Masahet Nour workspace | 3rd August 2024

Gained knowledge in Agile methodologies and Scrum principles, and applied these techniques to effectively manage and deliver a sample project

Languages:

- English: Fluent French: Certificate DELF B1_ Arabic: Native
